## HERBAGE REVIEWS—1939—SUMMARY OF CONTENTS

Articles.	PAGE.
BOERGER, A. The fundamental factors of the Uruguayan forage problem. . . . .	70—9
CARDON, P. V. The trend towards a grassland agriculture in the United States . . . . .	7—9
CHOLODNY, N. G. The internal factors of flowering . . . . .	223—47
CHRISTIANSEN-WENIGER, F. and TARMAN, O. Anatolian lucerne . .	59—69
GEITH, R. The organization of herbage and forage crop production in Germany since 1933 . . . . .	1—6
KIRK, L. E. and MACVICAR, R. M. Production and geographic distribution of forage crop seed in Canada . . . . .	170—4
OBERMAYER, E. Root study technique . . . . .	175
SCHOLZ, J. and ŠMIDRKAL, B. Propagation of cuttings of herbage plants by means of growth-promoting substances . . . . .	176—80
STEVENSON, T. M. and WHITE, W. J. The comparative values of the Fairway variety and the standard types of crested wheat grass . .	248—50
U.S. DEPARTMENT OF AGRICULTURE, DIVISION OF FORAGE CROPS AND DISEASES. Production of herbage and forage crop seed in U.S.A. .	151—69
<b>Reviews.</b>	
Grassland and forage production.	
Production of forage in Southern Italy . . . . .	10—23
Pasture research and erosion control in South Africa. . . . .	80—5
The temporary ley . . . . .	100—1
Pasture control. . . . .	252—7
The fodder value of the wild flora of Manchoukuo . . . . .	261—4
Plant breeding, strain trials, etc.	
Manual of plant breeding . . . . .	36—7
International lucerne test . . . . .	251—2
Ecology, plant geography, surveys, etc.	
Plant communities of Western Queensland . . . . .	86—9
Survey of the tussock-grasslands of South Island, New Zealand. .	89—90
Erosion and other surveys in East Africa . . . . .	101—3
The grasslands of Brazil. . . . .	192—7
Erosion and pastoral research in Kenya . . . . .	197—8
A grassland survey of the Falkland Islands . . . . .	257—60
Phasic development, vernalization, etc.	
Phasic development of plants (1) . . . . .	27—32
A revision of the theory of vernalization. . . . .	32—5
Phasic development of plants (2) . . . . .	94—9
Phasic development of plants (3) . . . . .	181—91
Regarding "Phasic development of plants" . . . . .	189—91
Phasic development of plants (4) . . . . .	265—74
Nutritive value.	
The comparative nutritive value and relative cost of forage (pasture and hay) and other crops . . . . .	24—6
Miscellaneous.	
Clover and malaria . . . . .	90—5

## (Including Diseases and Pests)

## Scandinavian Literature.

	PAGE
Measures calculated to ensure a satisfactory pasture yield under severe climatic conditions .. .. .	104—7
Rational production of seed of meadow plants .. .. .	107—10
Holt, the most northerly Agricultural Experiment Station in the world. .. .. .	110—1
Cultivation in the seter (mountain pasture) region of Norway. Better utilization of the "first floor" of mountain districts .. .. .	199
Swedish Seed Growers' Association .. .. .	200—1
Production and harvesting of timothy seed .. .. .	202—3
Swedish Seed Association, 1938 .. .. .	275—7
Norwegian late-flowering red clover .. .. .	278—9
Parasites of red clover .. .. .	280—1

## Annual Reports.

Great Britain .. .. .	112—20
Eire. .. .. .	120—1
Germany. .. .. .	121—30
Netherlands .. .. .	130—3
Africa .. .. .	204—10
India .. .. .	210—9

## Conferences.

Swedish Seed Association. Association of Scandinavian Agricultural Research Workers. American Society of Agronomy, Central Fodder and Grazing Committee, India. American Association for the Advancement of Science. Ecological Society of America. Fifth International Grassland Congress. .. .. .	38—45
Botanical Institute, Academy of Sciences, Leningrad. New Zealand Grassland Association. Alfalfa Improvement Conferences. Conference on Desert Reclamation. International Society of Phytosociology. .. .. .	134—40
Association of Scandinavian Agricultural Research Workers. Ecological Society of America. South African Association for the Advancement of Science. Anatomical Conference U.S.S.R. .. .. .	220—1
New Zealand Grassland Association. Institute of Botany, Ukrainian Academy of Science. Royal Society of Canada. American Society of Agronomy. American Association for the Advancement of Science. .. .. .	282—3
Swedish Seed Association. International Society of Soil Science. Fifth International Grassland Congress. Seventh International Botanical Congress. .. .. .	284—8

## Annotations.

Great Britain: A survey of English grasslands .. .. .	141
National Atlas .. .. .	141
Germany: Kaiser Wilhelm-Institut .. .. .	46
Limburgerhof, an Agricultural Experiment Station .. .. .	142
Frame drying of clover and grass .. .. .	142
U.S.S.R.: Academy of Science, Ukraine .. .. .	142
Norway: Norwegian Bog Cultivation .. .. .	143
Sweden: Swedish meadow plant breeding .. .. .	289
Denmark: Agricultural Society for Crop Cultivation on Lolland-Falster. .. .. .	46

	PAGE
Netherlands : Ensilage in the Netherlands .. ..	144
Artificial drying of grass .. ..	144
State Agricultural Station, Groningen .. ..	222
Italian Africa : Agricultural research .. ..	289
Palestine : Soil erosion and conservation .. ..	46
Algeria : Agricultural Laboratory and Plant Breeding Station. .. ..	222
Basutoland : Visit of L. H. Collett to U.S.A. .. ..	47
Puerto Rico : Proposed Inter-American University .. ..	290
U.S.A. : Retirement of Dr. A. J. Pieters .. ..	48
Soil Conservation Service .. ..	48
Unguarded seed importation .. ..	48
Mr. P. V. Cardon .. ..	145
Dr. O. S. Aamodt .. ..	290
Committee on Ecology of Grassland in North America .. ..	290
